NATIONAL SANDA SQUAD TRAINING WORKSHOPS SATURDAY 25th JULY 2015

NATIONAL SANDA SQUAD TRAINING WORKSHOPS

The workshops for the National Sanda GB Squad, which started in January this year, continues to be received with enthusiasm and squad members have shown dedication to their training and for the sport. Squad members travel regularly, from West London, Kent, Surrey, West Sussex, Devon, Shropshire, Northumberland, and Scotland.

The training program is challenging for most if not all. It has been designed to help each athlete to improve on their own fitness levels as well as their technical skills.

Tactical sparring drills have been implemented which have been designed to help improve point scoring for competitions.

The squad is building and growing together and is becoming a strong team. Each member is showing good martial art spirit.

JUNIOR MEMBERS

We have also had many interest form juniors and have now included a junior training program - minimum age 16 to the workshops.

We welcome our 1st junior member who joined the squad last month and travels with her instructor / father from Devon.
